

Wood fired Hot Tub

Key information and Terms & Conditions for use

As the lead guest, you are accepting this acknowledgement and disclaimer on behalf of each member of your party and will ensure each member of your party is aware of and strictly adheres to the guidelines set out below when using the hot tub.

Special Note on Children

Yourself and all members of your party hereby agree to ensure that any children in your care, or associated with your party are supervised at all times when they are in the vicinity of the hot tub. Extreme caution must be taken to ensure that no child under Twelve years of age is permitted to enter the hot tub at any time. Any children over twelve years of age and using the Hot Tub or near the Hot Tub must be closely supervised at all times. The nature of the wood burning Hot Tub mean extra care is needed due to hot surfaces, real fires and chimneys.

Instructions for Use

See information in the hot tub lighting box in the laundry block and lid storage.

- The Hot Tub requires 90 – 240 minutes
 - Use the eco fire lighters and a small amount of kindling to light the stove.
 - Once the kindling is burning add a couple of small logs, and then when burning add more logs to build a large fire but don't over fill the stove, you need to air to circulate to allow the logs to burn.
 - Once the logs are burning you will need to top up the stove with fresh logs every 30 mins with the vent closed and only if you are using the hot tub. Do not fill up the log burner and leave overnight.
 - Once the water is warm, the tub is ready to enjoy.
 - Care must be taken when using the stove, no-one under 18 can operate the stove, keep pets away from the stove and young children.
 - Use the gauntlets provided when adding wood to the wood burner. Despite a heat protection barrier, the Log Burner flue will get hot. PLEASE DO NOT TOUCH IT
- All members of your party and yourself as lead guest understand and agree that: Children should not go near the hot tub without adult supervision and should never be left unattended in or near the hot tub.

The Hot tub is not to be used between 10:00pm and 8am

- . Always enter and exit the hot tub slowly, as the plastic surface of the tub may be slippery.
- . Never jump in the hot tub or subject it to other unintended loads, as this may cause personal injury as well as damage to the hot tub.

A wood fired hot tub needs extra caution due to the natural, unregulated way the water is heated. It is essential to test the water temperature before entering. Recommended temperature 37.5 degrees.

- Do not overheat the hot tub, keep the water temperature no higher than 41°C. Higher water temperatures can cause strain on the cardiovascular system.

If the hot tub heat goes over 47 degrees on the thermometer The Bringewood has the right to close the hot tubs for the duration of your stay due to misuse and if any damaged caused to the tubs due to overheating the lead guest will be charged

Limit the hot tub use to no more than 15-20 minutes at a time and if when you feel you are getting too hot, get out and allow your body to cool, when you feel comfortable you may submerge yourself back in

· **The use of drugs, alcohol and some medications before or during use of the hot tub may lead to unconsciousness with the possibility of drowning and can greatly increase the risk of fatal hyperthermia.**
